## STOCKS REGAIN LITTLE LOST LIFE

Business took on a little life in stock circles this morning, although prices remained about the same. Oahu and McBryde seem to be in demand at higher figures, while other stocks find ready sale upon the bases of yesterday. It is reported that buying orders for Oahu are still unsatisfied for the reason that the stock cannot be had at about yesterday's quotations.

Between boards 30 shares Oahu Railway changed hands at \$144.50, at which, however, the stock is weak. On the board this morning more was offered at the same figure.

A sale of 5 shares Hawaiian Commercial was made at \$41.50, which \$135 asked.

The sales of Oahu were all on the street, there being 20, 70 and 100 shares, for which \$34 was paid. On the board this morning more appeared at the same, but bidding had dropped back to \$33.875. Market very strong at those figures.

A sale of 5 shares Hawaiian Commercial was made at \$41.50, which was really below the market. On the board the same was offered for small or large blocks, but holders demanded \$41.875. Very little of this stock is offering.

A sale of 35 Honokaa was made at \$19.875, after which \$19.75 was bid. These figures are below the market, however, as holders are demanding \$21.

On the board 35 and 15 Ewa sold at \$33.25, after which bidding was at \$33, with \$33.50 asked.

On the street 25 McBryde sold at \$6.125, followed by 10 on the board at the same. At the close \$6 was bid, but holders had advanced their figure to \$6.25, at which the stock seems to be firm. Olau, the companion stock of McBryde, sold at \$5.59 10 shares changing hands. At the close of this morning's session, \$5.375 was bid and \$5.625 asked.

Tanjong Oluk rubber stock came in for some attention, \$42 being bid and \$45 asked for the paid-up stock.

### HILO TAKES OIL.

Mr. Payne, the Umanau oil man, has returned from Hawaii where he put in about four weeks talking oil. He reports that the people of Hilo took readily to the proposition and that he did a very satisfactory business there. He will, next visit Maui and finally Kauai, by which time he calculates that all of the stock of the company will have been disposed of.

## Business Conditions In Foreign Countries

GREAT IMPROVEMENT IN COMMERCE IS INDICATED IN ENGLAND

AND ON THE CONTINENT OF EUROPE—FIGURES SHOW REMARKABLE PROSPERITY OF FRANCE—SOUTH AFRICAN TRADE BETTER—THE COTTON INDUSTRY.

LONDON, May 7.—Rubber and oil continue to monopolize the attention of the stock exchange to the exclusion of virtually everything else.

Business in rubber shares is still very active and on a large scale, but signs are not wanting that the excitement is somewhat abating. The opinion seems to gain ground that, in most cases, there is no justification for a further rise, and dealings are chiefly restricted to shares in producing companies which benefit by the present high rates of the raw material.

The market in oil shares, on the other hand, has expanded largely. It has gained in strength by the migration into it of some of the leading jobbers from the South African market, and by the co-operation of the Paris bourse. The French public has taken kindly to oil shares. Enormous purchases have been made here for French account, and it certainly looks as if the oil boom would assume much greater proportions.

The favorite locality is the Malkop district in Russia, and companies galore have been and are being brought out to exploit plots of ground in that district which is said to be very rich in oil, and whose proximity to the sea should facilitate the transport of the product at a reasonable cost.

The remarkable prosperity of France is indicated in the following authentic figures:

The stock of gold exceeded in 1910 £240,000,000, which is far higher than the total of the monetary stock of several great nations of Europe combined.

The gold kept at the Bank of France alone represented on March 24, 1910, over £120,000,000 and the silver £25,000,000.

Deposits in the savings banks amounted in 1899 (the year before the war with Germany broke out) to £28,440,000. In 1880 they had risen to £51,200,000 in 1890 to £116,480,000, in 1900 to £130,560,000, and in 1908 to £180,000,000.

The consideration named is \$2,250. The ownership of the other half is such that the land becomes immediately available for plantation purposes.

This purchase is in line with a plan to add as much neighboring sugar land as possible to Honokaa.

Another land transaction today was the transfer of a small piece of Waialua to the Consolidated Pineapple Company, the sellers being Byron O. Clark and wife. It is understood that this land is required for road and other purposes.

£180,000,000. The saving banks deposits have thus increased more than six-fold in the space of 40 years.

Railway traffic receipts of Victoria (Australia) have improved steadily for some time. From July 1, 1909, to February 28, 1910, they totaled £2,947,000 as against £2,836,000 for the corresponding period of 1908-09. The progress is largely due to the splendid wool clip and the record harvest just reaped. Railway statistics show that 2,207,000 bags of wheat are sacked at country stations in Victoria, compared with 1,295,000 bags sacked the previous year.

At the annual meeting of the Standard Bank of South Africa, the premier financial institution of that country, the chairman referred to the continued improvement in trade. Exports and imports have increased. Railway returns and government revenue are satisfactory. Local industries are prosperous, the trade in ostrich feathers, maize, mohair, hides, wool and coal being progressive.

The farming industry is doing well, and in Rhodesia especially there has been a steady influx of settlers. Gold mines and diamond mines show progress, notwithstanding some shortage of labor. The production of copper and base metals has increased satisfactorily. The South African coal trade has grown in importance. The output from Natal collieries in 1909 amounted to 1,786,000 tons; 835,000 tons thereof served to replenish the coal bunkers of vessels at Durban, and 404,000 tons were exported by sea. There has also been an increase in the output of collieries in the Transvaal and Orange river colony.

Favorable accounts are to hand as to the cotton industry. Cotton growing has been extensively taken up in Nyasaland. Experiments conducted in the Transvaal as well as the whole of Swaziland are suitable for the profitable cultivation of cotton, and interesting tests are in course of progress in the Cape colony.

## HONOKAA SUGAR CO. BUYS MORE LAND

The widow files petition for letters of administration of the estate of the late Emil Thomas Drier. Estate valued at \$3600.

Deputy Attorney Rawlins being ill today, the bigamy case in Federal court was again continued, this time till Thursday. All jurors not engaged in this trial and who were excused until tomorrow morning, have now been excused until Tuesday morning at 10 o'clock. Deputy Harry Bruns of the Marshall's office was taken ill today. Breckons is attending the grand jury.

The Honolulu Times will be out tomorrow.

The U. S. department of justice wants to know the whereabouts of Alfred Bernard Windt, alias John S. Stewart, a Hungarian. Marshal Hendry has received a cablegram requesting him to hunt for the man as there is a possibility that he is in Honolulu. He is accused of the embezzlement of \$5,000 from the First National bank of Pittsburgh. He is said to have a sweet heart in Honolulu.

Agents for the Manuka expect her to arrive from Suva at daybreak tomorrow morning. A number of her passengers have booked for the Wilhelmina that sails at ten o'clock for San Francisco.

The Mauna Kea left at noon today with a few passengers for Hilo and way ports.

## PAIR OF PARTNERS AGREE TO SPLIT

A. H. Dondero and L. Kirkpatrick, who have been doing business under the name of the Hawaiian Realty Co., have divided their interests in the tract of land purchased last year from the Palolo Land & Improvement Co., thus bringing to a close negotiations which have been under way for several months.

Under the agreement, which is now supported by deeds, filed this morning, Dondero gets 23 or the Palolo, or Waialae, lots—neither gentleman seeming to be a bit leery as to the "23" in the transaction, and Kirkpatrick gets 23 lots.

It is understood to be the intention of both gentlemen to continue in the real estate business, but operating separately.

The property in question—now known as Waialae freights—formerly belonged to A. Frank Cooke and his associates. It was cut up into large lots and streets laid through at proper intervals. Quite a few lots were sold and some building was planned there. At this juncture Messrs. Kirkpatrick and Dondero concluded that a partnership was rather top heavy and arrangements were made to the end above noted.

The land concerned begins at the end of the Kaimuki car line and is favorably located in every respect. Now that it is released from its entanglements, home builders will doubtless take an interest in it.

### TREASURER TRENT.

County Treasurer Trent, of the Trent Trust Company, has notified his office that he will return to Honolulu by the Wilhelmina on June 14.

### ALEXANDER & BALDWIN

The special meeting of Alexander & Baldwin called to consider a proposal to increase the capital stock from \$2,000,000, to \$5,000,000, will be held at 2 o'clock tomorrow afternoon.

## TO HONOLULU GULCH BY NEW RAILROAD

B. F. Dillingham returned Sunday from Hilo, whither he went last week to inspect the Hakalau extension as far as it has gone. He was highly pleased with the progress that has been made, and left operations in such shape that rapid progress will henceforward be made. A large number of pictures of points of interest along the new route were brought back and are being exhibited by the big railroad man.

The excursion train which first ran over the road was made up of two closed and one open cars. These were all full of people. The train ran out to the Honolulu gulch, where an immense bridge nearly 500 feet long is to go in. The foundations for the bridge have already been put in, and around the "jumping off" place on the Hilo side the party of excursionists had their pictures taken.

Engineer Kluegel went on to the proposed second extension of the line, and will begin surveys there at once. The agreement calls for the completion of this stretch of road by December, 1912, but Mr. Dillingham hopes to have cars through to Paulo prior to that time.
